## Conflict Mineral Statement

Guerrilla RF is committed to the responsible sourcing of “conflict minerals” throughout our supply chain.

The underlying concerns assess that conflict minerals originating in the DRC or adjoining countries may be mined and sold by armed groups to finance civil violence. These minerals can make their way into the supply chains of the products used by consumers and businesses around the world.

We are focusing our compliance efforts in the following areas:

- Conducting a reasonable country of origin (RCOI) inquiry with our global supply base as part of our conflicts minerals due diligence process.
- Provide, and expects our suppliers to cooperate in providing, due diligence documentation, to assist us in confirming that any Conflict Minerals in our supply chain are from “conflict free” regions.

Guerrilla RF does not directly purchase any Conflict Minerals from any source and does not knowingly procure any product containing Conflict Minerals from the Conflict Region. Guerrilla RF’s products do contain “Conflict Minerals” that are necessary to the functionality or production of the product, however, Guerrilla RF is committed to working with our supply chain to assure transparency regarding the origin and traceability of minerals contained in products.

We recognize these rules have required, and will continue to require, time and effort on the part of our suppliers. We appreciate their ongoing support in this important effort.

Summary: After careful review and with cooperation from our supply chain, Guerrilla RF certifies that to the best of its knowledge the products designated by Guerrilla RF comply with “DRC conflict free” requirements.

Should you require further information or have any questions, please contact Guerrilla RF at [green@guerrilla-rf.com](mailto:green@guerrilla-rf.com) referencing Conflict Minerals in the subject line.

Regards,

Steven Smith
