

## **For Immediate Release**

### **Guerrilla RF Awarded ISO 9001:2015 Certification**

GREENSBORO, N.C. – November 06, 2017 – Guerrilla RF, Inc., rapidly becoming known around the world as the leader in high performance microchips for wireless RF and Microwave IC's, today announces an update to the previous milestone achievement. Guerrilla RF is proud to announce the organization has progressed from recommended status to final confirmation they have been awarded ISO9001:2015 certification status by TUV Rheinland of North America, a 3rd party registrar.

"We are extremely proud of our team in obtaining this important accomplishment and receiving the final confirmation," said Steven Smith, Vice President of Quality at Guerrilla RF. "Guerrilla RF's achievement has received overwhelming positive feedback from our customers. Achieving the final ISO9001:2015 award status illustrates our commitment as a company to customer satisfaction and strengthened performance through continual process improvement."

As part of the ISO certification process, Guerrilla RF underwent a rigorous audit of its business and management processes, including the design, operations and sales processes. This achievement is another step and further confirms Guerrilla RF as a major supplier in the design and sale of high performance Radio Frequency Integrated Circuits (RFIC's) and Monolithic Microwave Integrated Circuits (MMIC's) for consumer, commercial and military wireless product applications.

Customers wishing to download a copy of the certificate may visit <http://guerrilla-rf.com/quality>.

#### **About Guerrilla RF**

Guerrilla RF provides high performance monolithic microwave integrated circuits (MMICs) to wireless infrastructure original equipment manufacturers in multiple market segments, including enterprise/carrier-class WiFi access points, small cells, wireless backhaul, cellular repeaters and automotive. The company's patented Guerrilla Armor™ technology enables greater coverage area and higher data rates for wireless networks. Headquartered in Greensboro, N.C., the company was founded in April 2013 by Ryan Pratt. To date it has introduced over 50 products. All trademarks are the property of their respective owners.

#### **About ISO9001**

ISO9001:2015 provides a tried and tested process based framework for taking a systematic approach to managing the organization's processes to enable consistent delivery of product that satisfies customers' expectations. Used in some 190+ countries by businesses and organizations large and small, in public and private sectors, by manufacturers and service providers, in all sectors of activity.

ISO 9001:2015 is the most relevant certification to date, replacing the prior ISO 9001:2008 standard.
