

## Guerrilla RF Certificate of RoHS Compliance

Guerrilla RF is committed to ensure that our products comply with government directives such as RoHS. As of the date of this Certificate, to the best of our knowledge, Guerrilla RF, Inc. certifies that the following substances regulated by RoHS directive 2011/65/EU, amended Directive 2015/863 and China RoHS 2.0 are not knowingly contained in our IC amplifier components and are compliant to RoHS initiatives. This is based on our careful review and cooperation from our supply chain of the available information and MSDS for each raw material.

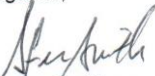

All Guerrilla RF finished IC products labeled as "RoHS Compliant" are fully RoHS compliant in China and Europe.

Note: This Certificate applies to finished, individual IC components only and does not apply to any Guerrilla RF engineering evaluation boards due to potential use of Pb solder when soldering the IC to the board.

| Restricted Substance List            |       |  |
|--------------------------------------|-------|--|
| Restricted Substance                 |       | RoHS MCV Threshold                     |
| Lead (Pb)                            | 0.1%  | EU and China RoHS 2.0                  |
| Mercury (Hg)                         | 0.1%  | EU and China RoHS 2.0                  |
| Cadmium (Cd)                         | 0.01% | EU and China RoHS 2.0                  |
| Hexavalent Chromium (CrVI)           | 0.1%  | EU and China RoHS 2.0                  |
| Polybrominated Biphenyls (PBB)       | 0.1%  | EU and China RoHS 2.0                  |
| Polybrominated Diphenylethers (PBDE) | 0.1%  | EU and China RoHS 2.0                  |
| Bis(2-ethylhexyl) phthalate (DEHP)   | 0.1%  | Added by amended EU Directive 2015/863 |
| Butyl benzyl phthalate (BBP)         | 0.1%  | Added by amended EU Directive 2015/863 |
| Dibutyl phthalate (DBP)              | 0.1%  | Added by amended EU Directive 2015/863 |
| Diisobutyl phthalate (DIBP)          | 0.1%  | Added by amended EU Directive 2015/863 |
